## Faena Hotel Miami Beach

📍 Miami Beach

Faena is an all-encompassing experience dripping in gold, red and animal print created by the flamboyant and visionary Argentinean hotelier Alan Faena. With such wild brushstrokes, he manages to make it all work from the moment you set foot in the gilded cathedral lobby to the moment your head hits the pillow inside your lavish luxury suite.

**Time Out tip:** Home to jaw-dropping contemporary art, this is the hotel that houses the very Instagrammable "Gone But Not Forgotten" by Damien Hirst. The iconic woolly mammoth skeleton dipped in gold is immortalized inside a glass case on the pool deck. Don't forget to snap a selfie.
