### FAENA BAZAAR

---

The fabulous Faena empire expands yet again, with the just-opened **Faena Bazaar**. The first floor of the playful retail mecca features a gallery of art exhibitions, a cafe and a Hartel boutique filled with menswear and "bodega" offerings like Goyard wrapped lighters and vintage Playboys. Rotating home, beauty and fashion concepts sweep the second and third floors, with an event space up on the fourth. Insta-illustrator @drawbertson (Donald Robertson), who splashed the bazaar's exteriors with decals of his work, will be on hand for live mural painting during Miami's Art Week.

**Maison Alma** dress, \$3,500 at Faena Bazaar, 3400 Collins Ave., Miami Beach
