## Faena

MIAMI BEACH, FL

As the first hotel designed by Baz Luhrmann, the Faena lives up to the extravagance of the Australian director's films, featuring a fantastical kaleidoscope of elaborate prints and novel sensations. Peppermint-striped umbrellas dot the pool deck, a gilded skeleton of a woolly mammoth by arist Damien Hirst occupies a beachfront lookout, and, in the feline-themed Living Room, a chandelier flickers whenever lightning strikes the Argentine Pampas. In the three years since it opened, Alan Faena's brainchild has easily become one of the city's buzziest spots. [faena.com](http://faena.com)
